

Diabetes Screening Definition updates for Medicare coming October 2024

Last modified on 09/08/2025 10:18 am EDT

Diabetic Patient Management

Are you aware of the changes coming to the management of your diabetic patients? Medicare has implemented changes effective October 7, 2024. The final rule is linked below.

What's Changed: We clarified claims processing requirements for ICD-10-CM diagnosis code Z13.1 and previously processed claims. Also, updated the web addresses of the transmittals (pages 1-3). Substantive content changes are in dark red.
