DSM-5 Codes

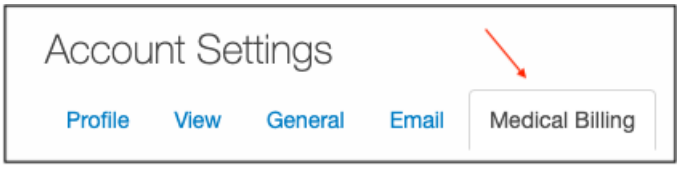

Last modified on 09/25/2026 3:20 pm EDT

The DSM-5 TR, or the Diagnostic and Statistical Manual of Mental Disorders, 5th Edition, Text Revision, serves as a fundamental reference tool for mental health professionals, offering comprehensive diagnostic criteria and terminology for various mental health conditions.

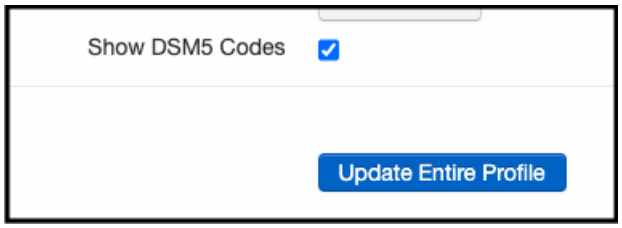

DrChrono has integrated DSM-5 coding that can be turned on and appear alongside a corresponding ICD-10 code allowing providers to accurately identify and categorize mental health conditions, facilitating precise treatment interventions and care coordination. Implementing DSM-5 codes into your account displays our commitment to providing cutting-edge solutions that address the specific needs of psychiatric and behavioral health practices.

Turning on DSM-5 codes

1. Navigate to **Account > Provider Settings**
2. Select the **Medical Billing** tab

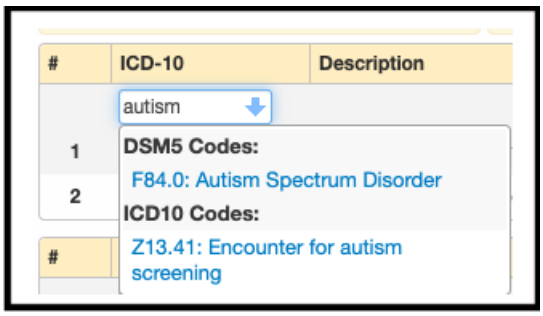

3. Scroll down to the Miscellaneous section
4. You will see a box labeled "Show DSM5 Codes" near the bottom of the screen.

5. Ensure there is a check in the button and then click **Update Entire Profile**.

Using in your account

When you search in the diagnosis field (by name or code), both DSM-5 and ICD-10 codes will appear.

#
ICD-10
Description
autism
1
2
DSM5 Codes:
F84.0: Autism Spectrum Disorder
ICD10 Codes:
Z13.41: Encounter for autism screening
