2024-03-29

09/17/2024 11:13 pm EDT

What's new

Billing and Payments

Summary	Description	Knowledge Base Article
HCPCS Code update	We have updated the database with the current list of HCPCS codes. They are available to add to your fee schedule and included on patient claims.	

Clinical

Summary	Description	Knowledge Base Article
Funding Source Field (Immunization Registry)	The Funding Source dropdown options have been updated to the latest version. Please note that none of the previous vaccine records with inactive options selected will have their data overridden or changed. Users will need to manually update this information.	
Update to Patient Chart and Clinical Notes (Gradual Rollout to All Users)	<p>DrChrono has improved the patient chart and clinical note experience with the following updates:</p> <p>Extended responsible party - additional fields added to Primary Responsible Party + Secondary Responsible Party section.</p> <p>Demographic history - section added to allow users to enter previous names and previous addresses within the demographics tab of the patient chart; updates to this section will be saved in the patient's CCDA files when exported.</p> <p>Billing codes in clinical forms - allows users to apply the appropriate billing codes assigned to a form field when the smart switches are turned on in the clinical note.</p> <p>These updates will take place beginning March 2024 and will be enabled for all users by May 2024.</p>	<p>How to add a responsible party to a patient chart</p> <p>Adding a Patient's Previous Address to the Chart</p>

Practice Management

Summary	Description	Knowledge Base Article
Removing the hyperlink from the office column within the appointments page	Hyperlinks will no longer display within the office column of any section on the appointments page. This will apply to all of the different sections (Future, Past) within the appointments view.	
Removal of the "Text Us" Number	We've removed the unused "Text Us" number on the login page from our application. Use the "Call Us" number, (844) 569-8628.	

Resolutions

Product Area	Summary	Description
--------------	---------	-------------

Clinical & Regulatory	Compound medication duplication fix	A fix has been implemented to prevent duplicate medications from appearing in the medication list when resending a medication list. Compound Medication duplication
Clinical & Regulatory	Viewing a PDF within a locked note	Users will be able to view a PDF within a locked note preview page and the locked note preview page will no longer issue. If users encounter an issue with the clinical note preview page, they can click a "Try Again" button to refresh the preview PDF.
Clinical & Regulatory	Display the ZIP Code for Puerto Rico	When you select Puerto Rico as the location, "PR" and the ZIP Code show in the location header.
Clinical & Regulatory	Exclude Non-SPI prescriber from Cancel workflow	Enhanced the ability to send prescriptions (eRx) by excluding Non-SPI prescribers from the Cancel workflow.
Practice & Patient Engagement	Saving international phone numbers	We've resolved an issue with saving international phone numbers.
