API

Summary	Description	Resources
API - <code>order_by=updated_at</code> supported in <code>*_list</code> resources	We have added the ability to sort by <code>updated_at</code> when calling <code>appointments_list</code> , <code>patients_list</code> , <code>clinical_notes_list</code> , and <code>line_items_list</code> using the parameter <code>order_by=updated_at</code> .	drchrono.com/api-docs
API - <code>LineItems</code> adding <code>service_date_range</code> filter	We have added the <code>service_date_range</code> filter for the line item APIs: <code>api/line_items</code> and <code>api/line_items_list</code> .	https://app.drchrono.com/docs/#tag/Billing/operation

Resolutions

Product Area	Summary	Description
Billing and Payments	Patient statements for inactive patients	Patient statements will now generate for balances, regardless if the patient is marked as inactive.
Billing and Payments	Text to pay receipts	If the status is marked as "paid", the receipt will be grayed out. If the payment status is other than "paid", you will be able to resend to the patient's phone number.
Billing and Payments	Multiple units billed for Custom CPT Code	When calculating the total price for a Custom CPT Code, the system will multiply the base price in the account's fee schedule and multiply quantity/minutes (QTY/MIN) as listed in the appointment. Knowledge base article Total Price Billed for Custom Codes
Billing and Payments	Text & email receipt buttons	The text and email receipt buttons have been adjusted to allow for better alignment.
Billing and Payments	Prices for Custom procedures on the clinical note	We fixed a problem that prevented procedure codes from appearing on the clinical note.
Practice Management	Unable to click the duplicate patient warning message	We have resolved an issue that was impacting the ability to interact with the duplicate patient warning message.
Practice Management	Error when trying to add a message to a new task	We have resolved an issue where messages were not populating when creating a new task.
Clinical and Regulatory	Clinical Note Fix	A fix has been implemented to ensure items that should be hidden (ex: vitals) do not appear on the clinical note.
Clinical and Regulatory	Clinical Note Fix	A fix has been put in place to ensure items that should be hidden (ex: vitals) do not appear on the clinical note.
