Auto Accident Claims: Option to add a business name as policy holder

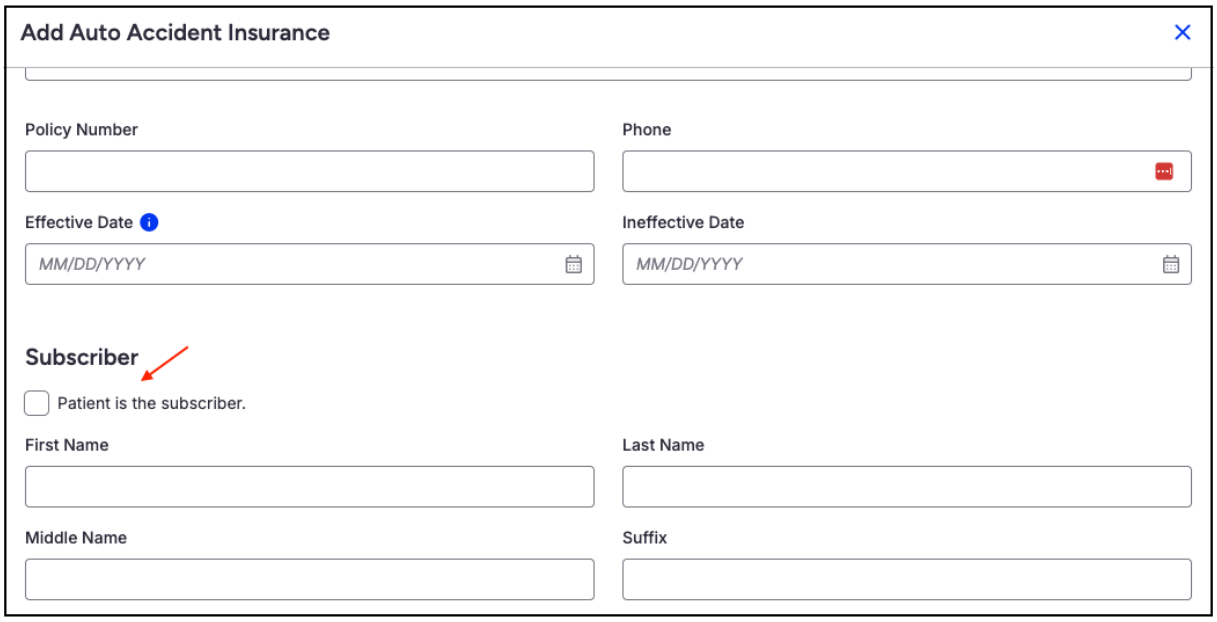

Last modified on 10/27/2026 4:33 pm EDT

While processing auto accident claims, you may have a situation where you need to add a business name as a policyholder. There is an option in DrChrono to list a business/company as such.

1. Navigate to the patient's chart > **Demographics > Auto Accident Insurance** tab.

2. Make sure the box labeled "Subscriber is the Patient" is unchecked.

3. The responsible party (business/individual) can now be entered and will be included on the claim.
