

Fee Schedule - Overview

Last modified on 10/30/2024 10:16 am EDT

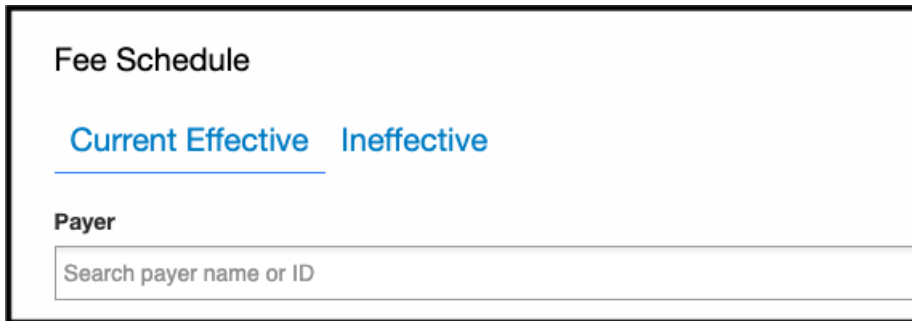

DrChrono has updated the fee schedule to include additional fields and functionality that can be customized to adapt to the needs of your practice.

Features include:

- The ability to have multiple effective fee schedules for specific providers, specific specialties, or practice locations.
- The ability to inactivate entire fee schedules, but leave them visible for reference or rebills for dates of service covered by the now inactive fee schedule.

To view your fee schedule:

1. Navigate to **Billing > Fee Schedule**.

The screenshot shows a web interface for managing fee schedules. At the top, it says "Fee Schedule". Below that are two tabs: "Current Effective" (which is selected and underlined) and "Ineffective". Underneath the tabs is a section labeled "Payer" with a search input field containing the placeholder text "Search payer name or ID".

From there you will see this screen:

These are the headers you will see:

Payer ▾	Plan Name ▾	Assignee ▾	Effective Date ▾	Ineffective Date ▾	Action
---------	-------------	------------	------------------	--------------------	--------
