

# Customizing your available payment types

07/08/2024 7:21 pm EDT

You now can customize the options available as payment types when your office posts patient payments. For example, if your office does not accept checks, you can remove that option from the list of available payment types so it cannot be selected.

If you would like to utilize this feature, please reach out to your account manager, or [support](#) and ask for the feature to be turned on for your account.

Once it is turned on, you can edit your available payment types in your account settings section.

- Navigate to **Account > Provider Settings**

- Select the **Medical Billing** tab

## Account Settings

- Scroll down to the Miscellaneous section.

### Miscellaneous

Default ICD Code Version  
Copying billing respects provider  
Copy Proc From Pt's Last Appt

- Near the bottom of the list under Miscellaneous, you will see an option titled "Payment Methods"

Payment Methods

[Update Entire Profile](#)

- If you click on the dropdown, you will see a menu of available payment types

Payment Methods

None selected ▾

- American Express
- Cash
- Check
- Credit Card
- Debit
- Discover
- DrChrono Payments
- Mastercard
- onpatient
- Other
- Patient Payments
- Square (Legacy)
- Square
- Visa

[Update Entire Profile](#)

- Check the box next to the options you would like to show while you are posting patient payments. Once you are done, click on **Update Entire Profile**.
- Now, when patient payments are posted within your office, the payment types you selected will be the only ones that will show.

## New Cash
