An enhancement has been built for our DaySheet (Billing > Transactions Report (DaySheet)). This feature will allow you additional sort options.

Here are the benefits:

- Break down the Day Sheet total by Office, Provider, Procedure Code, and Insurance
- Break down the details at three levels using any of the combinations from the four options provided (Office, Provider, Procedure Code, and Insurance).
- The details for the specific criteria can be seen by clicking on the value and exporting the details.
