

# Clinical Decision Support (CDS) Rules

07/08/2024 7:21 pm EDT

DrChrono includes several default Clinical Decision Support rules that can be found under **Clinical > CDS Rules**. You can also [make your own CDS rules](#) here to use in your DrChrono account.

You can view and edit custom CDS rules you have created on the top part of the screen. The hardcoded CDS Rules can be seen below.

## Clinical Decision Support Rules

[View CDS Rules](#) [+ Add New Custom CDS Rule](#)

### Custom CDS Rules

For Stage 2 of Meaningful Use, you need a total of 5 active CDS rules (including hardcoded rules) active for your 90 day 2014 MU attestation period. Only 1 active CDS rule is required for Stage 1 of Meaningful Use.

ID	Provider	Staff Visibility	Description	Care Info	Developer	Bibliography	Funding	Release Date	Notes	Status		
210804	Jane Smith	All	All patients with diabetes should have a glycohemoglobin blood test within the past 6 months.	This patient has a diagnosis of Diabetes Mellitus, but has not had a glycohemoglobin done within the past 6 months. He/she is due for one. ## Creating Custom CDS Rules

You can create your own CDS rules that meet the needs of your practice. Click **+ Add New Custom CDS Rule** to begin.

# Clinical Decision Support Rules

[View CDS Rules](#)

[+ Add New Custom CDS Rule](#)

Next, fill out the information you would like to have to meet the rule. Keep in mind that in order for this rule to be satisfied, **ALL** of the conditions you include need to be met with patient data.

The description is also the name of the rule. For example, I am going to call this rule 'Dolphin Problems'.

Next, select any other information you would like to have for this rule, for example, an age range of 20-40.

[View CDS Rules](#)

[+ Add New Custom CDS Rule](#)

Description

Dolphin Problems

**Patient DOES have:**

Age Range in **Years**

20 - 40 years old

Age Range in **Months**

- months old

Sex

Race

Ethnicity

Gender Identity

Sexual Orientation

Preferred Language

Temperature

 -  f

Pulse

 -  bpm

Blood Pressure - Systolic

 - 

Blood Pressure - Diastolic

 - 

Oxygen Saturation

 -  %

Height

 -  in

Weight

 -  lbs

BMI

 - 

Next, enter any ICD-10 codes, Active medications, Allergies, or Lab Results. You can also include any bibliography links or funding information. In this example, we have 3 codes for dolphin incidents.

Active Problem (ICD-10)	W56.01XA: Bitten by dolphin, initial encounter	⌵	✖	+
Active Problem (ICD-10)	W56.02XA: Struck by dolphin, initial encounter	⌵	✖	
Active Problem (ICD-10)	W56.09XA: Other contact with dolphin, initial encounter	⌵	✖	
Active Problem (ICD-9)		⌵	✖	+
Active Drug		⌵	✖	+
Active Allergy		⌵	✖	+
Lab Result		⌵	✖	+
Bibliography				
Research Funding Source	<input type="text"/>			
Release Date of Supporting Research:	<input type="text"/>			

You can also enter any conditions for the patient NOT to have to trigger the rule. We have a code associated with sea lions as an example here. Once you have set all of the data for your rule, click **+Add CDS Rule**.

**Patient DOES NOT have:**

Problem (ICD-10)	W56.11XA: Bitten by sea lion, initial encounter	⌵	✖	+
Problem (ICD-9)		⌵	✖	+
Drug		⌵	✖	+
Allergy		⌵	✖	+
Lab		⌵	✖	+

[+ Add CDS Rule](#)

Let's take a look at the rule in the patient's chart. This sample patient has a Dolphin Problems CDS rule tag because

she is in the age range of 20-40 and she has ALL 3 of the ICD-10 codes we set for the rule.

**Active Problems**

Show Inactive Problems     Patient has No Known Active Problems

Problem	Code System	ICD-CM Code	SNOMED	Date Diagnosed	Date Changed	Status	Notes	Updated	
Bitten by dolphin, initial encounter	ICD-10	W56.01XA		Sep 21, 2022		active		Dec 15, 2022	<a href="#">Info</a> <a href="#">Edit</a> <a href="#">Delete</a> <a href="#">HL7 2.5.1 File</a>
Struck by dolphin, initial encounter	ICD-10	W56.02XA		Jan 21, 2022		active		Dec 15, 2022	<a href="#">Info</a> <a href="#">Edit</a> <a href="#">Delete</a> <a href="#">HL7 2.5.1 File</a>
Other contact with dolphin, initial encounter	ICD-10	W56.09XA		Dec 14, 2022		active		Dec 15, 2022	<a href="#">Info</a> <a href="#">Edit</a> <a href="#">Delete</a> <a href="#">HL7 2.5.1 File</a>

If anything is added or changed that does not meet the rule, the CDS Rule flag will not appear. For example, we have added the sea lion code that was in the 'Patient Does Not Have' section of the example rule. Since we have added this code, the rule is no longer met.
