## Scheduling an Appointment during a Telehealth Appointment on the iPad

07/08/2024 7:22 pm EDT

You can schedule an appointment for your patient during your video visit. For example, you need to schedule a follow-up appointment for the patient you are currently seeing.

Once you have started the video visit and the patient has joined the appointment, you can share your screen. Tap on the menu icon (

) and select New Appointment.

Next, schedule the appointment as you normally would and Save.
