

Can I customize the view in the Live Claims Feed?

Last modified on 11/22/2024 11:06 am EST

The short answer is YES!

1. Navigate to **Billing > Live Claims Feed**
2. From the header, select the green **Display** button.

The screenshot shows the 'Live Claims Feed' header. It contains several filter sections: 'Select All Offices', 'Select None', 'C new office All', 'D Inpatient Hospital All', and 'Primary Office All'. Below these are 'Claim Type All', 'Claim St' (with colored status indicators), 'Billing St: All', and 'Appt Profiles: All'. There is a 'Calculate Counts' button, a 'What's this?' link, and a 'TFL Warning' checkbox. A search bar includes fields for 'Patient', 'Payer Name', 'Payer ID', 'drc claim #', and 'Clinical Note'. An 'Open window in new tab' checkbox is also present. At the bottom, there are buttons for 'Batch Status Change', 'Export to File', 'Custom Export', 'Display', and '+ Schedule'. A red arrow points to the 'Display' button.

3. A list of all header options will show. You can unselect the ones you no longer wish to see on your LCF view. The column will be hidden immediately when you unselect it.
