

RxFill Message (ONC Update)

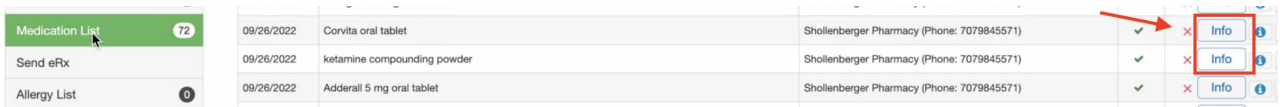

07/08/2024 7:22 pm EDT

The Office of the National Coordinator for Health Information Technology (ONC) is a staff division of the Office of the Secretary, within the U.S. Department of Health and Human Services.

RxFill is a message type that Surescripts provides to help give more precise updates on the status of individual Fills of a prescription as required by the ONC.

The “pop-up” is meant to display the information in a summarized manner for the care team member to review via the Medication List within the patient’s chart.

Below is the message that will appear upon clicking the "info" button.

Medication List	72
Send eRx	
Allergy List	0

Date	Drug	Pharmacy	Status	Action
