

How do I enter days supply in prescriptions and medications?

07/08/2024 7:24 pm EDT

You can add the day's supply to prescriptions you send and medications you add to a patient's chart. The day's supply field is required for schedule II controlled substance prescriptions. Days supply can help reduce the pharmacy clarification rate and improve the accuracy of PDMP such as the Morphine Milligram Equivalent (MME) associated with each dispensing.

When you send a prescription, there is a Days Supply field for you to enter the supply for the medication.

New Prescription

Patient's Prescriptions

Medication

Favorite medications ⌵ ✕

Type* **Medication** Compound Supply

Medication* traZODone 50 mg oral tablet ⌵

SIG* ⓘ N/A: U Generic RX
Effective Date

⚙️ 1 a day at bedtime 18 / 140

Dispense* 📅 90 Dispense Unit* Tablet ⌵ DAW Yes **No** **Days Supply** 90 Refills 3

Add to Favorites Add to Medication List ⓘ

Notes to Pharmacist
* Please do not enter SIG, Effective Date, Drug Name, Strength, Quantity or Dispense Unit in this field.

If you are adding a medication to the patient's chart, you can also enter the day's supply.
