

Compound Medications on the iPad

Last modified on 12/03/2024 11:57 am EST

You can use the compound medications feature to write up compound prescriptions to print out for your patients or send electronically.

Note: The compound medications feature cannot be used with controlled substances.

- Tap on the patient's name and select **Send eRx**.

- After the prescription entry screen loads, tap the plus () icon and select **Compound Medication**.
