

Set Time Zones in DrChrono

09/05/2024 8:13 pm EDT

You can set the time zone in your DrChrono account in **Provider Settings**.

1. Select **Account > Provider Settings**.
2. From the **Profile** tab, select your time zone.

4. At the bottom of the page, select **Update Entire Profile**.

The time zone can currently only be set at the provider level. All appointments and reminders are based on the time zone set under the provider's profile.

If you have different providers and time zones, you can assign each provider a time zone and designate an office for them. In the following example, there are two offices: one in the Eastern Time zone and one in the Mountain Time zone.

Jul 25 2021 - Jul 31

Su	Mo	Tu	We	Th	Fr	Sa	Sun 7/25	Mon 7/26	Tue 7/27	Wed 7/28	Thu 7/29
27	28	29	30	1	2	3					
4	5	6	7	8	9	10					
11	12	13	14	15	16	17					
18	19	20	21	22	23	24					
25	26	27	28	29	30	31

For telehealth across time zones, you can use our partner, Nimblr's AI Scheduling, Holly. Among other great features, Holly by Nimblr ensures that patients see availability in their time zone and that the appointment is scheduled correctly on the provider's calendar in their time zone. To learn more about adding Holly by Nimblr to your account see their marketplace listing [here](#).
