Push Notifications for iPhone

07/08/2024 7:27 pm EDT

You can turn on push notifications for your phone so that you can be notified when certain activities happen.

1. Tap More and select Account Settings.

Note: You may need to enable push notifications on your iPhone.

To enable the notifications, go to **Settings**. Scroll down and select the **DrChrono EHR** app.

Select Notifications and turn on the switch (

) to enable Notifications.
