

Scheduling an Appointment on the OnPatient App

07/08/2024 7:28 pm EDT

If online scheduling is enabled by the provider, a patient can schedule an appointment through the OnPatient app.

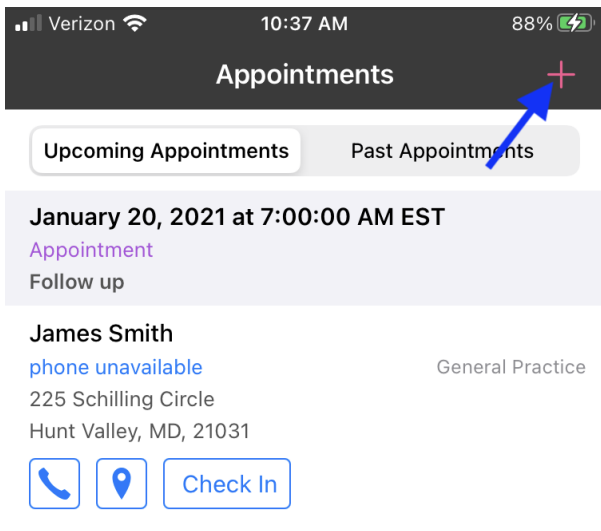

1. Select the **Appointments** menu.

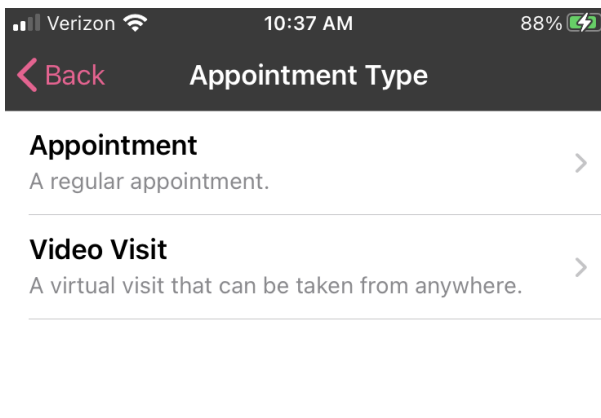

2. You can see your past and upcoming appointments. Select the (

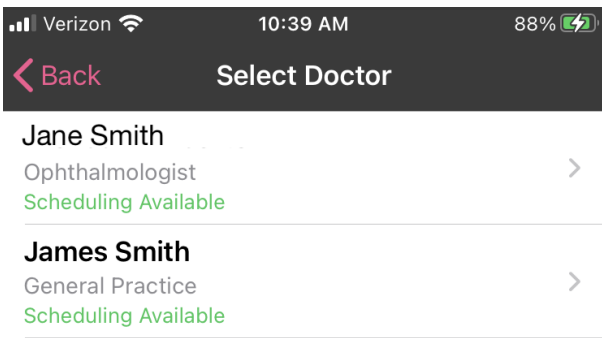

) icon to schedule a new appointment.

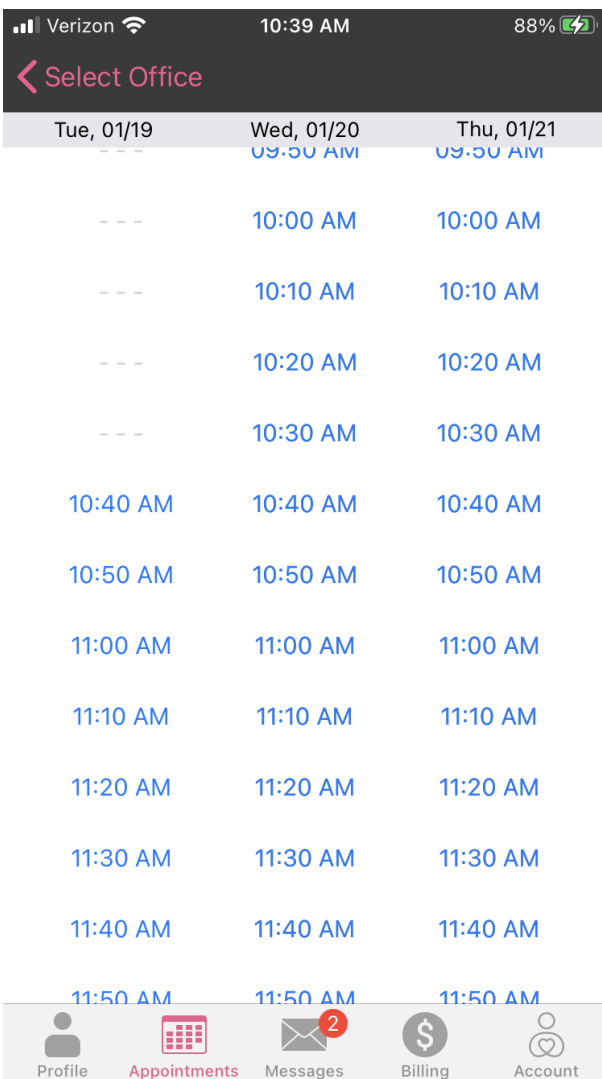

3. Select the **Appointment Type** if available.

4. Select a provider.

5. Next, choose an appointment time.

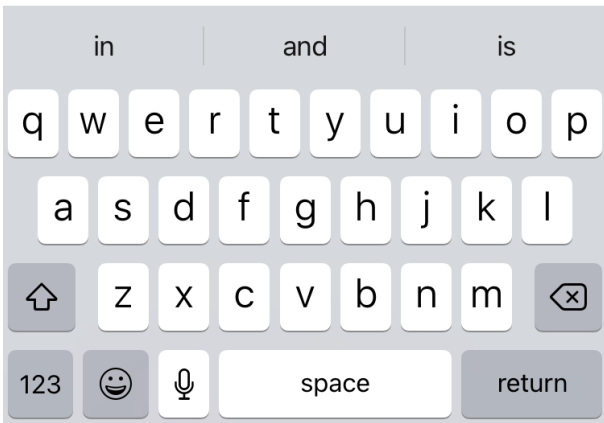

6. Enter a Reason for Visit and select Next.
