

Institutional Billing with DrChrono

Last modified on 12/19/2024 10:53 am EST

From DrChrono, providers can bill both professional and institutional claims.

A **professional** claim would be utilized for services such as:

- Office visits with a medical provider such as a doctor or physician assistant
- Businesses that provide durable medical equipment to patients
- Services billed on an HCFA-1500 form

An **institutional** claim would be utilized for services such as:

- Care received as a hospital inpatient
- Care received as a patient in a skilled nursing facility
- Services billed on an HCFA-1450 /UB04 form

To set your account up to bill institutional claims, please speak to your implementation specialist, account manager, or DrChrono support. They can set the appropriate edits to allow institutional billing for your account.
