

Searching Enrolled Payers First

Last modified on 11/07/2024 11:11 am EST

In DrChrono you have the ability to prioritize the payers you are enrolled with so that they are brought to the top of the list when searching for insurance payers.

In the image below, there are several options for the payer being searched. If the desired payer is not at the top of the list, we can enable a setting so that your preferred payers show at the beginning of the list, making them easier to find.

In this article, we will look at enabling the setting to search enrolled payers first and adding payers to prioritize the list.

The screenshot shows the 'Insurance' tab in the DrChrono interface. The 'Primary Ins' sub-tab is selected. The 'Insurance Company' dropdown menu is open, displaying a list of payers. The 'Subscriber is the Patient' checkbox is checked. The list of payers includes:
