

Setting Up Your Bamboo Health Integration

07/08/2024 7:30 pm EDT

You can easily integrate Bamboo Health's (formerly Appriss Health) prescription drug monitoring program (PDMP) into your DrChrono account. Bamboo Health's PMP Gateway allows you to access real-time PDMP information without having to leave DrChrono and log into another website, allowing you more time to care for your patients.

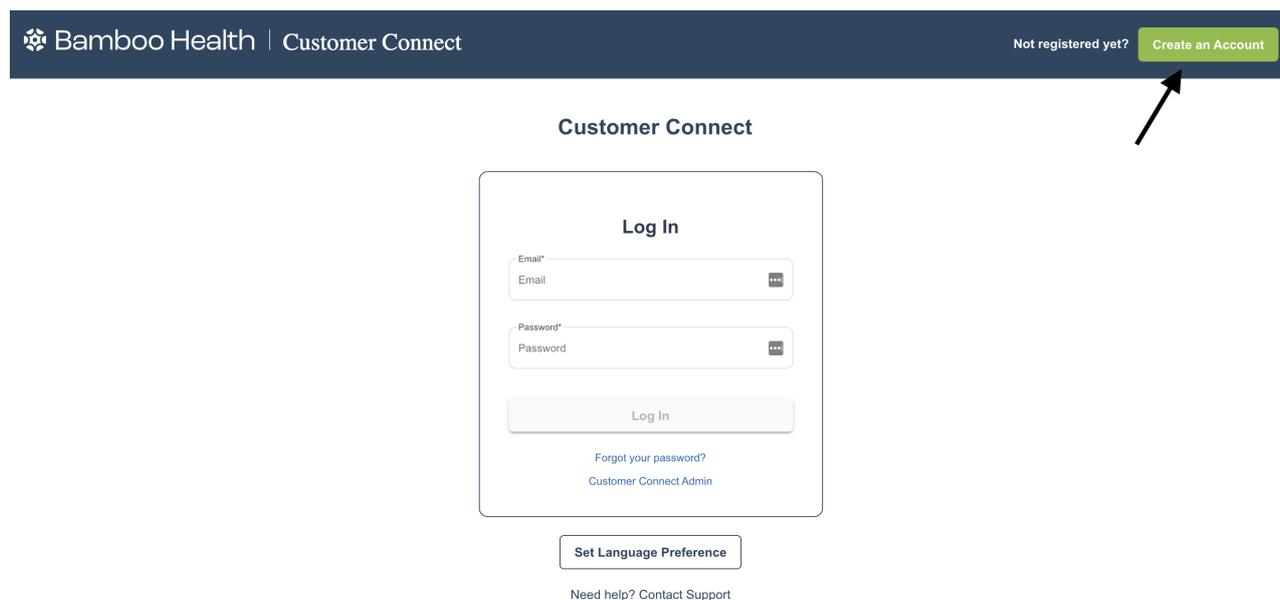

This article will describe the process for [Funded States](#) and [Non-Funded States](#) as well as [view the PDMP report](#).

You can view which states are funded on Bamboo's site [here](#).

Note: Due to state restrictions, [Tennessee](#) will continue to have its own integration request forms and will require all customers wishing to integrate in their state to sign up via the existing process.

Funded State Integration

1. Go to Bamboo Health's Customer Connect page [here](#).
2. Click **Create an Account** in the top right-hand corner.

The screenshot shows the Bamboo Health Customer Connect interface. At the top, there is a dark blue header with the Bamboo Health logo and the text "Customer Connect". On the right side of the header, there is a link "Not registered yet?" and a green button labeled "Create an Account". An arrow points to the "Create an Account" button. Below the header, the main content area is titled "Customer Connect" and contains a "Log In" form. The form has two input fields: "Email" and "Password", both with "Email" and "Password" labels and "..." icons. Below the input fields is a "Log In" button. Underneath the button are two links: "Forgot your password?" and "Customer Connect Admin". At the bottom of the form area, there is a "Set Language Preference" button and a link "Need help? Contact Support".

3. After creating an account, follow the prompts on each screen to complete the process.
 - You can sign up for multiple states at the same time. On the Organization Screen, you will be prompted to provide their **Facility Locations** – this is a multi-select list where you can provide all of the states where you have locations and wish to integrate

Once the state PDMP admin approves the credentials (est. 2-4 weeks), the credentials will be issued to DrChrono. **Note:** In order for your integration to be completed and view reports, you must first have registered for eRx and EPCS in your DrChrono account.

Non-Funded State Integration

- Visit Bamboo Health's EHR integration page [here](#).
- States that do not offer funding will not be listed individually and you must complete the registration form on the right side of the screen.

PDMP Integration Request

Thank you for your interest in easier access to prescription drug monitoring program (PDMP) data through integration. We are here to help!

Bamboo Health (FKA Appriss Health) supports PDMP integration in the highlighted states:

Most states are now funding EHR integration for all qualified healthcare entities in that state. **To apply for state funding, confirm your state is listed below then simply scroll down to follow the instructions located below the list.** If you do not see your state listed, please submit the request form located on this page.

1. Visit the Customer Connect portal at: <https://connect.bamboohealth.com/>

- Click Create an Account in the top right-hand corner.
- Login and follow the on-screen prompts to provide the needed information for your integration request.
- Sign all necessary agreements within the portal and complete your application.

2. Upon receipt of your completed application, Appriss Health will submit your request to the state for final approval.

3. Upon state approval, credentials will be sent to your organization's primary contact and/or your EHR/PMS vendor, per their onboarding process.

4. A confirmation email will be sent to your healthcare organization's primary point of contact.

Only authorized decision makers should complete a funding application.

***PLEASE NOTE: If you are located **Tennessee**, you will need to visit the state-specific link below to apply for funding

Do not fill out this form if the state where you are requesting integration is listed in the column to the left. Instead, see provided instructions.

Please submit the request form below, even if you state is not currently participating. By submitting your request, we will be able to notify you if there is a change in your state's status.

4. Upon attending the informational meeting, you will be directed by the Bamboo Health resource on the next steps to contract for the service.
5. Once contracting has been completed, system account credentials for use will be created and a request to query the PDMP will be sent by Bamboo Health to the state PDMP admin for review and approval.
6. Once the state PDMP admin approves the credentials (est. 2-4 weeks), the credentials will be issued to DrChrono.

Viewing the PDMP Report

Note: All actions surrounding the PDMP report will also be tracked in the audit log.

You can view the PDMP reports in a patient's chart. In order to run a report on a patient, there are five required demographics that need to be recorded: **First Name**, **Last Name**, **Phone Number**, **Date of Birth**, and **Zip Code**.

1. The **First Name**, **Last Name**, and **Phone Number** can be entered in the chart under the **Important** tab.

2. To view the report go to **Medication List** in the patient's chart.

Users will see a drop-down list for selecting PDMP Authorized Prescribers. This list will display the location, DEA number, and NPI number of each prescriber

In cases where a user has only one Prescriber DEA, DrChrono will automatically select it and initiate the PDMP report. However, if there are multiple locations, the user will be prompted to choose the intended Prescriber location. Once the selection is made, DrChrono will proceed to run the PDMP report for the specified prescriber's location.
