

How to Add a New Appointment Profile

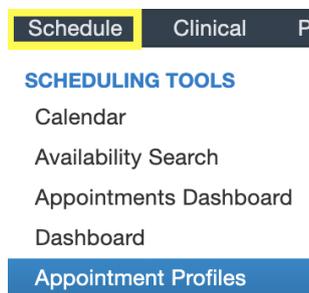

Last modified on 12/06/2024 6:01 pm EST

Appointment profiles save you time by pre-populating fields when creating a new appointment.

Appointment profiles are used to:

- Automatically set a Reason For Visit
- Set a duration for an appointment
- Set a color for the appointment
- Fill out billing codes associated with the appointment
- Fill out the payment type for the appointment
- Attach consent forms or any other forms to the appointment.

To create a new appointment profile, go to **Schedule** on your navigation bar and select **Appointment Profiles**.

In your appointment profile editor, select **+Add New Profile** in the upper-right-hand corner.
