

Patient Education Materials: How do I use a document another provider uploaded?

07/08/2024 7:32 pm EDT

In Patient Education, providers may access and share documents with providers who have uploaded to the DrChrono community. By browsing through the repository of community documents, you do not need to create your own to share with your patients by providing your patients with community documents.

To use a public document, navigate to the document you wish to use by visiting our [Patient Education Materials Library](#).

In the information panel on the right side of the page, select **Use this resource**.
