

How do I add a patient's picture to their chart on the iPad?

07/08/2024 7:33 pm EDT

When using the [EHR app](#), you can very easily attach your patient's picture to their chart using your device's camera.

1. To begin, select the appointment or use the search tool to find a patient with a chart picture you would like to add or change. Tap on the camera icon or the patient's picture to take a photo.

The screenshot shows the EHR app interface on an iPad. At the top, the status bar displays '9:51 AM Wed Jul 28' and '99%' battery. The app header includes 'Filters', 'Today', a refresh icon, a search icon, and a plus icon. Below the header is a search bar labeled 'Search Appointment'. The main content area is divided into two columns. The left column shows a list of appointments for '07/28/2021 Wed (2)'. The first appointment is for 'Dana Harris' at '07/28 10:15AM' in 'Exam 1'. Below it is an appointment for 'Michelle Harris' at '07/28 04:10PM' in 'Exam 1'. The right column shows the details for 'Dana Harris (Female | 31 | 07/28/1990)'. At the top of this section is a camera icon with a black arrow pointing to it, and a 'Start Visit' button. Below this are sections for 'Appointment Details', 'Billing Details', 'Patient Flags', 'CDS Matches (3)', and 'Vitals'. The 'Appointment Details' section includes 'Appointment profile' (None Selected), 'Appointment Status' (None Selected), 'Office' (Primary Office), 'Exam Room' (Exam 1), 'Provider' (James Smith), and 'Billing Type' (ICD-10). The 'Billing Details' section includes 'Payment profile' (Insurance), 'Billing Status' (None Selected), and 'Co-Pay' (\$0.00). The 'Patient Flags' section shows 'No Flags'. The 'CDS Matches (3)' section lists three items: '1. Patient must have documented medications', '2. Patient must have documented allergies', and '3. Adult Immunization Schedule Age: 27-49'. The 'Vitals' section is currently empty. At the bottom of the screen is a navigation bar with icons for 'Dashboard', 'EHR', 'Messages' (6), 'Tasks' (36), and 'Account'.

Using the camera, take a picture of your patient. You'll have the option to use or retake the picture.

After you have taken a picture that you are satisfied with, you'll see your patient's chart with your updated picture.
