

# Viewing Past Appointments in OnPatient

07/08/2024 7:34 pm EDT

If your patients are using OnPatient, they have the option to view their past appointments.

To begin, your patient can reach their appointments by selecting the **Appointments** tab on their OnPatient navigation bar. On the appointments page, select a past appointment to view it.

The screenshot shows the OnPatient interface. At the top, there is a navigation bar with the OnPatient logo and several tabs: Appointments (highlighted), Doctors, Billing, Messages, Documents, and Health Profile. The user's name, Michelle Harris, is in the top right corner. Below the navigation bar, the page title is "Appointments". There are two buttons: "Book Video Visit" and "Book Appointment". Underneath, there is a section for "UPCOMING APPOINTMENT" with a card for "May 18, 2022 at 8:00 AM Back Pain" by Dr. James Smith, with a "Check in" button. Below that is a section for "PAST APPOINTMENTS" with a list of three appointments. The first appointment, "February 4, 2022 at 11:40 AM" by Dr. James Smith, is highlighted with a black arrow pointing to it.

When viewing an appointment, you will be able to view the details that the provider provided during the appointment. This includes a reason for visit, the diagnosis, and the treatment that occurred during the appointment.
