If your claim is denied for timely filing, you can appeal the claim with the proof of timely filing if it was filed within the payer's established guidelines.

- 1. Hover over the **Billing** tab and select Live Claims Feed.
- 2. Filter by the patient name or Chart ID, then click on the visit date. This will direct you to the **Billing Detail** screen.

3. You will find the Log section if you scroll down under the CPT/HCPCS codes. Listed in this log will be the date/time/user of when the claim was set to the **Bill Insurance** status. The claim would have been sent on that date to the payer. This is your proof that the claim was submitted within the payer's timely filing limit.

- 4. You can also include the date/time of the "payer acknowledged" status. That status comes directly from a 277 file sent by the payer acknowledging receipt of the claim.
- 5. Press **Print Screen** at the top right corner to print the entire screen, including the log. This can be submitted with your appeal.
