

Getting Started: Integrating with Labs

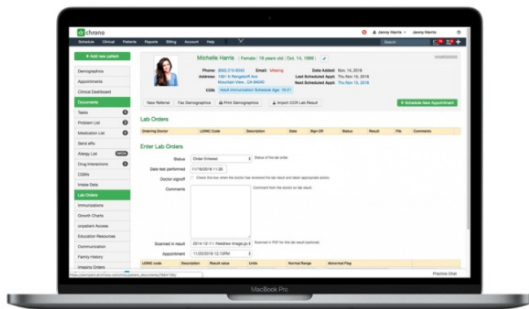

Last modified on 04/17/2026 4:57 pm EDT

Basic Lab Integration Setup

The DrChrono has the ability to integrate with hundreds of labs throughout the United States. With two labs, Labcorp and Quest Diagnostics, we maintain a direct partnership that provides our customers using those services with seamless integration and direct support. With our integration with Health Gorilla and [Lifepoint](#), our customers can additionally integrate with labs within their network outside of Quest and Labcorp.

To get started with labs, please visit our lab integrations below:

- [Labcorp](#)
- [Quest](#)

Are you a clinician?

Connect your DrChrono account to Quest and LabCorp.

Once you reach the lab integration page, select the links for Labcorp and/or Quest Diagnostics. You will be taken to the registration page for the respective company for instructions on how to integrate with your DrChrono account. Our [partner marketplace](#) can help you get started with Lifepoint.

For Health Gorilla integration [DrChrono Customer Support](#)
