

Everything You Need to Know about Faxing within DrChrono

07/08/2024 7:37 pm EDT

You can fax from DrChrono in two ways. You can fax documents individually from the [referral](#).

A fax number is required to send and receive faxes in your DrChrono account.

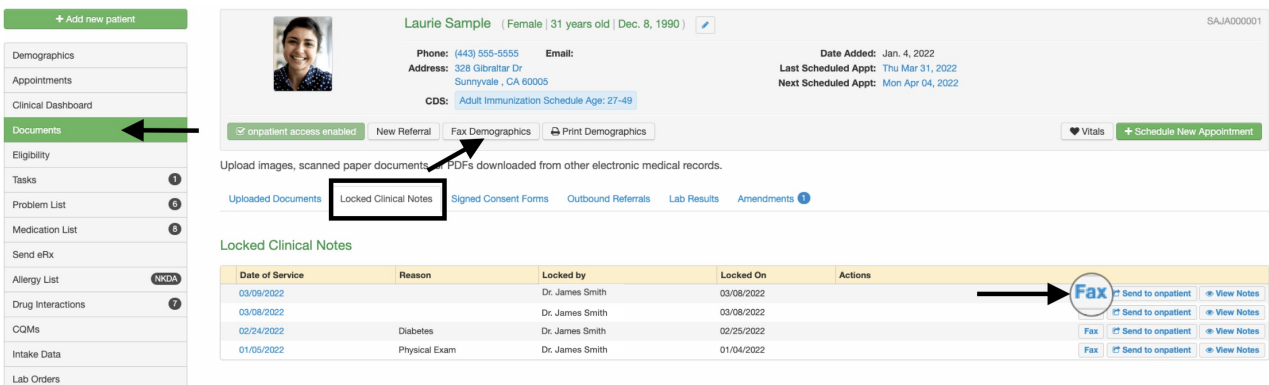

Faxing From the Chart

From the chart, we can send documents, like a locked clinical note, or the patient demographics one at a time.

1. To send faxes from the patient chart, go to **Patients > Patient List** and search for a patient or enter a patient's name or chart ID in the **Search** field.

2. Go to the **Documents** tab on the left and select the tab where the document is.

You can fax the patient demographics by clicking the **Fax Demographics** button.

In the example below, we can see the **Locked Clinical Notes** tab. To the right of the locked clinical notes, there is a **Fax** button. Click **Fax** to send the clinical note.

3. After clicking the **Fax** or **Fax Demographics** button a window will open. Enter the contact information in the **To** field, a message if you would like, and click **Send Fax**.

Enhance Image Enabling this function, would raise the contrast and brightness of the fax itself. In some cases, faxes with certain text/color discolorations would benefit by having this enabled.

Note: You can also fax a document from the, Uploaded Documents, Signed Consent Forms, Outbound Referrals, Lab Results, and Amendments tabs. Each will have a **Fax** button.

Faxing from the Clinical Note

From the clinical note, you can fax the entire note or just one section.

Faxing a Clinical Note Section

1. Open a clinical note.
2. Select the section (template/form) you would like to fax. In the example below, **Subjective** is selected. Click **Fax Section**

Faxing Referrals

If you need to send multiple documents for a patient, for example, clinical notes, some uploaded reports, and lab results. You can do so by sending a referral through DrChrono.

For more information on faxing referrals and multiple documents, please click [here](#) for our article on sending referrals.

How do I see how many faxes I have sent?

Navigate to **Account > Provider Settings** and select the **Usage** tab.
