

# Patient Payment Plans: Minimum Monthly Payment Amount

Last modified on 10/11/2024 10:05 am EDT

DrChrono's Payment Plans allow for the office administrator to set a minimum payment amount. If a member of the office attempts to set a payment plan where the monthly payment is below the minimum payment set by the office administrator, they will receive this error message:

The screenshot shows a 'Create Payment Plan' dialog box with a red error message at the top: 'Plan amount must be set to greater than or equal to minimum payment amount allowed setting (\$100.00)'. Below the message, the form includes the following fields:

- Payment Option:** Radio buttons for 'Patient Total Balance' (unselected) and 'Selected Appointments' (selected).
- Appointment:** Text input showing '10/17/2023 10:30AM (\$24.00), 10/13/2023'.
- Total Balance of Selected Appointments:** Text input showing '44'.
- Payment Plan Amount:** Text input showing '\$ 44'.
- Duration:** Dropdown menu showing '3 Months'.
- Monthly Payment:** Text input showing '14.67'.
- First Payment Date:** Text input showing '05-11-2023' with a calendar icon.
- Enable Auto Payment:** Checkbox (unchecked).

At the bottom of the dialog, there are 'Close' and 'Create Payment Plan' buttons.

To set up the payment plan, either the minimum payment needs to be increased to the allowed setting, or the office administrator will need to update the setting to allow the payment plan to be saved.
