# Connecting Square to your DrChrono Account

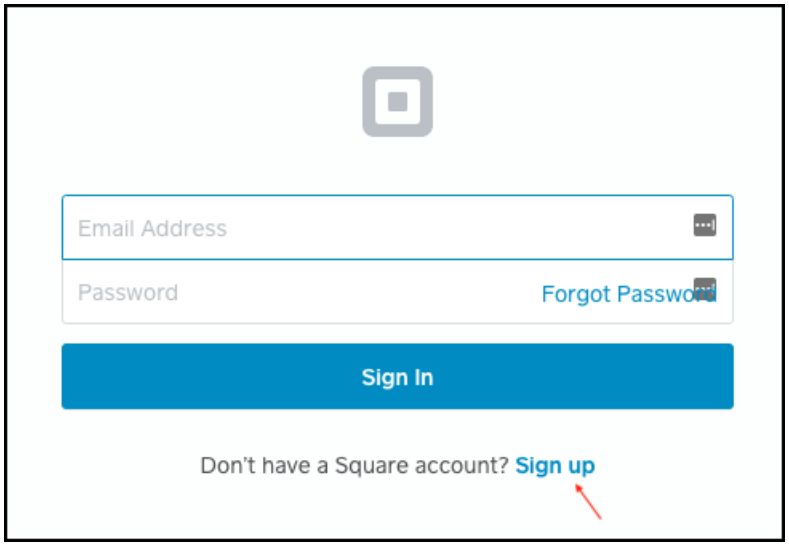

Last modified on 09/28/2026 2:41 pm EDT

DrChrono's integration with Square makes it easy to take credit card payments in one place without having to log in to a different site. You can easily connect Square to your DrChrono account.

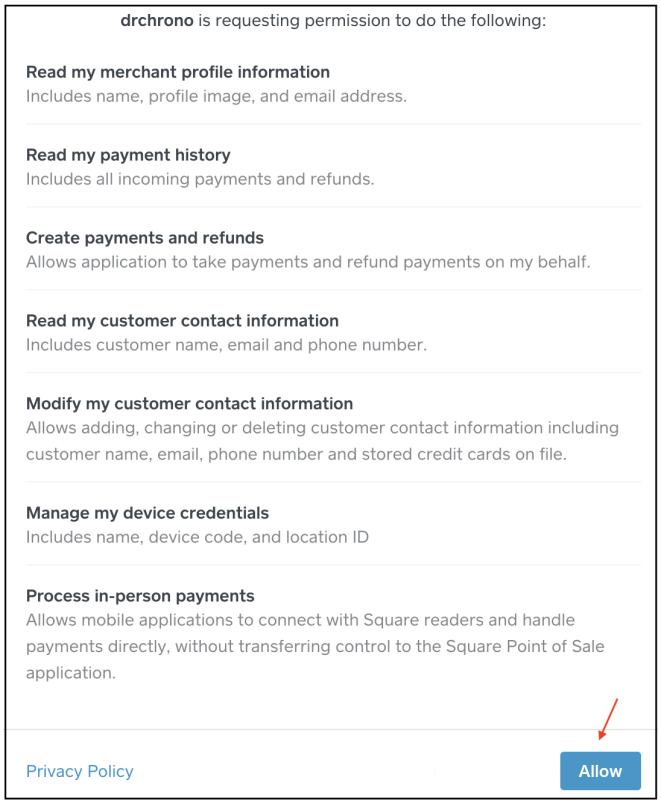

1. Navigate to **Account** > **Provider Settings** > **Patient Payments** tab.
2. Select **Connect** under the Square heading.

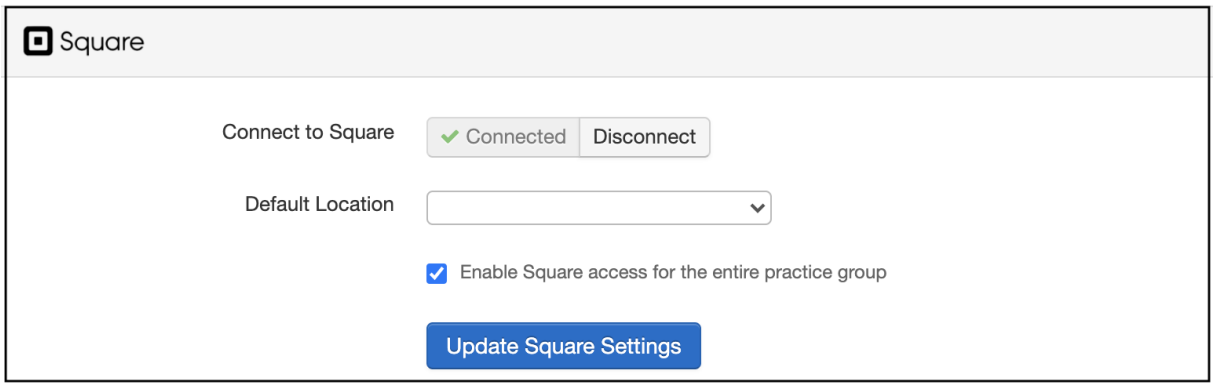

3. To complete the process, a popup window from Square will populate and prompt you to create an account or sign in to Square. Select **Sign Up** if you do not already have a Square account and follow the steps.

4. Once you have signed in, you will see a list of permissions in the pop-up window. Press **Allow**.

5. If you wish to enable Square access across the practice group, select the checkbox and press **Update**. This will allow all providers in the group to process payments with the same Square account.

6. To contact Square support, or view their FAQs, press here.
