

MBI - Medicare Beneficiary ID number look up tool

08/22/2024 9:31 am EDT

Medicare Beneficiary ID Number

Did you know there was an electronic tool where you can find a patient's Medicare Beneficiary Identifier (MBI) if they do not have their insurance card?

You first need access to eServices. Once you have access, you will have access to the **MBI Lookup tool**. Different MACs have it in different areas of the screen, so you might have to look around, but it will be there, likely as a tab.

To use the tool to obtain a patient's MBI, you will need:

- The beneficiary's first and last name
- Their date of birth
- Their social security number

The screenshot shows the 'MBI Lookup Tab' interface. At the top, there is a navigation bar with tabs for Home, Claims, Remittance, Eligibility, MBI Lookup (selected), Financial Tools, Messages, Forms, eReview, Support, Admin, and My Account. Below the navigation bar, there is a 'Get Status' button and a notification that says 'You have 0 unread message(s) and 0 alerts.' with a 'Help' button. The main heading is 'MBI Lookup'. Below this, there is a box titled 'Medicare Administrative Contractor (MAC) Provider Medicare Beneficiary Identifier (MBI) Lookup Tool' with a paragraph of text explaining the tool's purpose. Underneath, the 'Beneficiary Information' section contains five input fields: 'Beneficiary Last Name:*', 'Beneficiary First Name:*', 'Beneficiary Name Suffix:', 'Beneficiary Date Of Birth:*', and 'Beneficiary Social Security Number:*'. There is also a checkbox labeled 'I'm not a robot'. At the bottom left, there is a red asterisk indicating '*Required Field'. At the bottom center, there are two buttons: 'Submit Inquiry' and 'Clear'.

All patient data listed in this article is sample data. This is not a real person or real patient data.
