

What is an NDC and Why Do I Need To Include It?

Last modified on 02/18/2025 2:35 pm EST

NDC is an industry acronym that stands for **National Drug Code**. It is a unique 10-digit code that is universal for human drugs in the United States and is present on all drug packages in the United States. Payers require this information on claims when processing them for payment.

1. The first set of numbers in the NDC identifies the labeler, such as the [drug manufacturer](#), repackager, or distributor.
2. The second set of numbers is the product code, which identifies the specific strength, dosage form (i.e., capsule, tablet, liquid), and formulation of a drug for a specific labeler.
3. Finally, the third set is the package code, which identifies package sizes and types.

(Source: <https://www.drugs.com/ndc.html>)

In DrChrono, you can add the NDC to each HCPCS code listed in your fee schedule which will populate on the claim automatically.

**** Please Note:** If there is a change in the NDC code, whether it is a change in manufacturer, dosage, form, etc, the NDC will need to be updated in the fee schedule to represent and report the correct medication/dosage given.

1. To add to your fee schedule, navigate to **Billing > Fee Schedule**.
2. Select **Add New** to add a new HCPCS and NDC to the fee schedule, or if it already exists, press the pencil icon on the right. It will open this screen:

New Fee Item

Code type* Code*

Base price* \$ Allowed Reimbursement \$
Typical allowed amount for payer. Not used if blank.

CPT/HCPCS Modifier

NDC Code NDC Quantity

NDC Units

Custom description

The NDC code, quantity, and units can be entered for the HCPCS code. It will then populate on the claim each time it is added to an appointment. **** It will need to be updated if something changes with the manufacturer/dosage/etc that would change the NDC. ****

NDC codes can also be entered from the appointment screen:

ICD-10 Codes				NDC Codes			
#	Code	Description		NDC Code	Quantity	Units	Line Item
1	Z00.8	Encounter for other general examination	✘				
2	M54.50	Low back pain, unspecified	✘				

CPT and HCPCS Codes				Custom Codes			
Type	Code	Description	Price (\$)	Code	Description	Price (\$)	
<input type="checkbox"/> Include note in EDI Billing: <input type="text" value="Custom NTE EDI Billing Note (a.k.a. HCFA/CMS-1500 Line 19)"/>							

Or the Live Claims Feed: (**Billing > Live Claims Feed**)

Line items transactions

#	ICD-10	Description		Line Item	NDC Code	Quantity	Units	
					Add NDC code	1	UN (Unit)	+
1	Z00.8	Encounter for other general examination	✘					
2	M54.50	Low back pain, unspecified	✘
