

# Sending a Prescription through the iPhone EHR App

07/08/2024 7:44 pm EDT

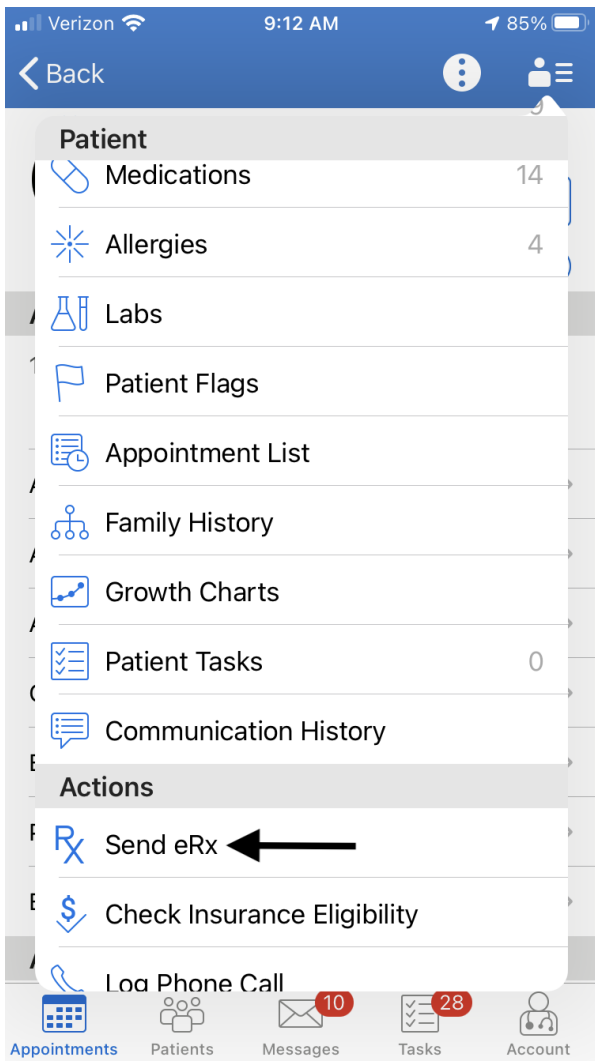

1. Select the patient you would like to send the prescription for and tap the menu (

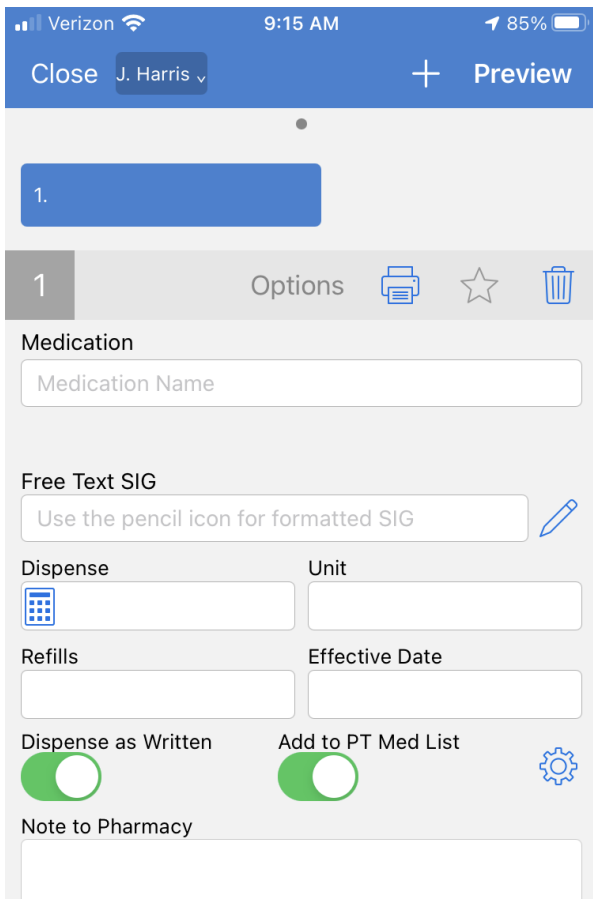

) icon.

The screenshot shows the patient profile for Jenny (Jen) Harris. At the top, the status bar shows Verizon, 9:12 AM, and 85% battery. Below the status bar is a blue header with a 'Back' arrow and a menu icon (person with three lines). A black arrow points to the menu icon. The patient's name 'Jenny (Jen) Harris' is displayed, along with 'Female 40' and '02/11/1980'. There is a 'Start Visit' button and a blue information icon (i). Below this are links for 'Super Bill' and 'Vitals'. A section titled 'Appointment Details' shows '11/17 09:11AM, 30 minutes'. Below this is a list of appointment details with right-pointing chevrons: 'Appointment Profile', 'Appointment Status', 'Appointment Status History', 'Office' (Primary Office), 'Exam Room' (Exam 1), 'Provider' (James Smith), and 'Billing Type' (ICD-10). A section titled 'Appointment Notes' is at the bottom, with a navigation bar containing icons for 'Appointments', 'Patients', 'Messages' (10), 'Tasks' (28), and 'Account'.

2. Select **Send eRx**.

3. Fill out the prescription information.

**Walgreens #00689**

**Note:**

- If you want to print the prescription select the printer icon(  ) on the left-hand side and print to your local printer.
- After manually entering in information if you want to save the prescription as a favorite you can select the star (  ) icon in the center. Click [here](#) for info on sending favorite prescriptions on the iPhone.
- Tap the trashcan (  ) to delete the prescription draft.

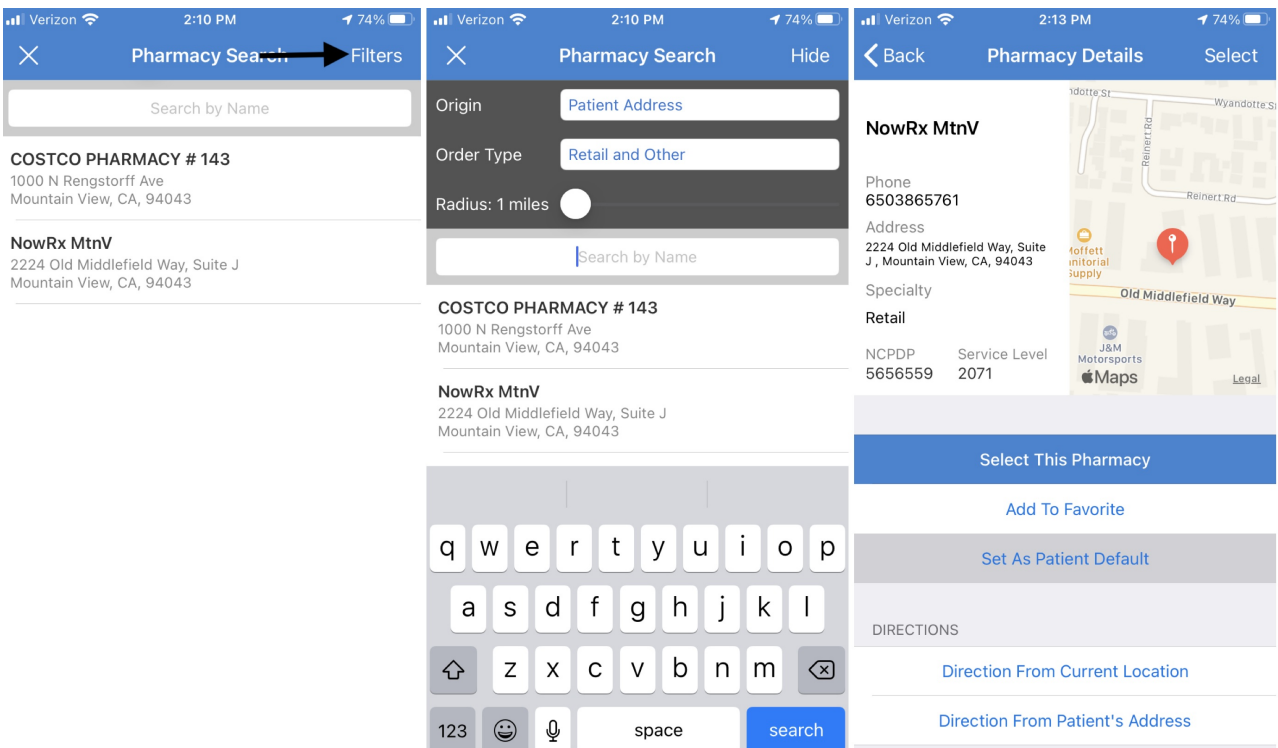

4. If you need to select a pharmacy, select **Tap here to select a pharmacy.**

5. You can search for a pharmacy, and choose from your favorites list or the patient's default.

If you choose the **Search** option, tap on **Filters** to change the parameters of your search. Select the pharmacy when found.

6. Next, select **Preview** in the upper right-hand corner.
