

eProvider Solutions- How do I resume a previously started enrollment request?

Last modified on 11/22/2024 10:27 am EST

Continuing work on a started, but, not submitted, enrollment request through the EPS-integrated portal is fast, easy, and efficient.

To begin -

1. Navigate to Billing > Enrollment
2. Select the **Continue Unsubmitted** tab

3. This screen will list all the enrollments that have been started, but not submitted. To resume work, select **Continue** on the right. This will take you to the enrollment screens where you can review the information listed, enter additional details, and submit your request.
