

# Creating Billing Profiles

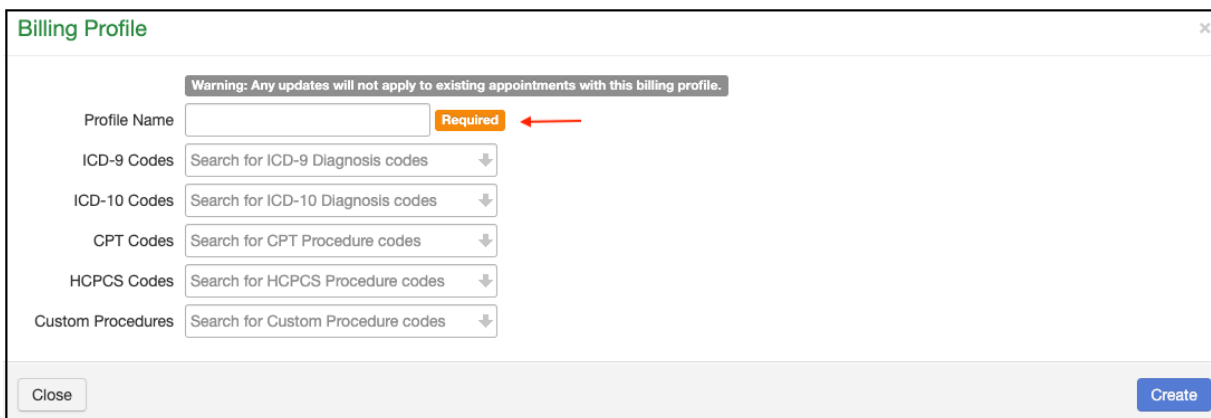

Last modified on 11/18/2024 3:38 pm EST

DrChrono's Billing Profiles allow you to save time by combining frequently combined CPT, HCPCS, Custom, and ICD-10 codes. Once created, a billing profile can add codes quickly and efficiently.

1. Navigate to **Schedule > Billing Profiles**.
2. Press **+Add New Profile** to create a new profile.

3. Add a name for your billing profile in the Profile Name column. Then, add any ICD-10, CPT, HCPCS, and/or Custom Codes to populate each time this billing profile is utilized. Codes can be added by number or can be searched by keyword.

4. After filling out the fields you need, press **Create**.

**Billing Profile** ✕

Warning: Any updates will not apply to existing appointments with this billing profile.

Profile Name:

ICD-10 Codes:

Code	Description
1 Z00.00	Encounter for general adult medical examination without abnormal findings

CPT Codes:

Code	Modifiers	ICD10 Dx Ptrs	Quantity	Price	
1 97161	<input type="text"/> <input type="text"/> <input type="text"/> <input type="text"/>	1 0 0 0	1.00	\$ 100	+ NDC Remove
2 99213	<input type="text"/> <input type="text"/> <input type="text"/> <input type="text"/>	1 0 0 0	1.00	\$ 175	+ NDC Remove

HCPCS Codes:

Custom Procedures:

- Once created, you can see the codes associated with the profile.
  - **Edit** will allow you to make any changes to the Billing Profile.
  - **Archive** will remove the profile from your active list.

Profile	ICD-10	CPT	HCPCS	NDC	Custom	Updated
<b>New Patient Visit</b>	99203					
						<input type="button" value="History"/> <input type="button" value="Edit"/> <input type="button" value="Archive"/>
