

CMS Measure ID 130: Documentation of Current Medications in the Medical Record

07/08/2024 7:48 pm EDT

You can easily enter data in DrChrono to sync with Healthmonix MIPSpro. You can enter some data in multiple places. Please see our [article](#) on all the areas in DrChrono you can enter data for reporting with Healthmonix MIPSpro.

Your Healthmonix MIPSpro dashboard contains a comprehensive description of the codes and criteria for each measure. Click on the **View Details** to see more.

#130 **Documentation of Current Medications in the Medical Record** ✕

Percentage of visits for patients aged 18 years and older for which the eligible clinician attests to documenting a list of current medications using all immediate resources available on the date of the encounter.

[View details](#)

Description

Percentage of visits for patients aged 18 years and older for which the eligible clinician attests to documenting a list of current medications using all immediate resources available on the date of the encounter.

Instructions

This measure is to be submitted at each denominator-eligible visit during the 12-month performance period. Merit-based Incentive Payment System (MIPS) eligible clinicians meet the intent of this measure by making their best effort to document a current, complete, and accurate medication list during each encounter. There is no diagnosis associated with this measure. This measure may be submitted by MIPS-eligible clinicians who perform the quality actions described in the measure based on the services provided and the measure-specific denominator coding.

NOTE: Patient encounters for this measure conducted via telehealth (e.g., encounters coded with GQ, GT, 95, or POS 02 modifiers) are allowable.

Measure Submission Type:

Measure data may be submitted by individual MIPS eligible clinicians, groups, or third party intermediaries. The listed denominator criteria are used to identify the intended patient population. The numerator options included in this specification are used to submit the quality actions as allowed by the measure. The quality data codes listed do not need to be submitted by MIPS eligible clinicians, groups, or third party intermediaries that utilize this modality for submissions; however, these codes may be submitted for those third party intermediaries that utilize Medicare Part B claims data. For more information regarding Application Programming Interface (API), please refer to the Quality Payment Program (QPP) website.

Denominator

All visits occurring during the 12-month measurement period for patients aged 18 years and older.

Patients aged 18 and older on the date of the encounter.

Date of Birth information can be entered in DrChrono in the patient chart under the **Demographics** tab with the **Patient Date of Birth**.

The screenshot shows a patient profile for Jenny (Jen) Harris. The left sidebar has a 'Demographics' tab selected. The main content area displays patient information: Name (Jenny (Jen) Harris), Gender (Female), Age (43 years old), and Date of Birth (Feb. 11, 1980). Contact information includes Phone (443) 555-5555, Email (sample@sample.com), and Address (328 Gibraltar Dr, Sunnyvale, CA 94089). Clinical data includes Date Added (Oct. 13, 2021), Last Scheduled Appt (Wed Feb 15, 2023), and Next Scheduled Appt. A 'CDS' section shows 'Adult Immunization Schedule Age: 27-49'. The primary provider is Dr. James Smith. Below this are buttons for 'New Referral', 'Fax Demographics', 'Print Demographics', 'Apple Health App Data', and 'Vitals'. A navigation bar includes 'Important', 'Demographics', 'Insurances', 'Authorizations', 'Smoking Status', 'Flags', 'Balance', and 'onpatient Payments'. A status bar shows 'Sufficient patient demographics to bill insurance.', 'Fall Risk', 'Gestational Diabetes', and 'Likes Cats'. The 'Demographics' section has input fields for 'Patient SSN' (111-11-1111) and 'Patient Date of birth' (02/11/1980), with a note 'e.g. 8/8/1979'.

Numerator

Eligible clinician attests to documenting, updating, or reviewing a patient's current medications using all immediate resources available on the date of the encounter.

You can enter medications in a patient's chart by [medication history reconciliation](#), or [adding a medication to a patient's medication list](#).

Definitions:

Current Medications – Medications the patient is presently taking including all prescriptions, over-the-counters, herbals, vitamins, minerals, dietary (nutritional) supplements, and cannabis/cannabidiol products with each medication's name, dosage, frequency and administered route.

Route – Documentation of the way the medication enters the body (some examples include but are not limited to: oral, sublingual, subcutaneous injections, and/or topical)

Not Eligible (Denominator Exception) – A patient is “not eligible” if there is documentation of a medical reason(s) for not documenting, updating, or reviewing the patient's current medications list (e.g., the patient is in an urgent or emergent medical situation where time is of the essence and to delay treatment would jeopardize the patient's health status).

NUMERATOR NOTE: The MIPS-eligible clinician must document in the medical record they obtained, updated, or reviewed a medication list on the date of the encounter. MIPS professional or MIPS-eligible clinicians submitting this measure may document medication information received from the patient, authorized representative(s),

caregiver(s), or other available healthcare resources.

This list **must** include ALL known prescriptions, over-the-counter (OTC) products, herbals, vitamins, minerals, and dietary (nutritional) supplements AND **must** contain the medications' name, dosage, frequency, and route of administration.

By submitting the action described in this measure, the provider attests to having documented a list of current medications utilizing all immediate resources available at the time of the encounter. **G8427** should be submitted if the MIPS-eligible clinician documented that the patient is not currently taking any medications.

Eligible clinician attests to documenting in the medical record they obtained, updated, or reviewed the patient's current medications (**G8427**)

OR

Denominator Exception:

Eligible clinician attests to documenting in the medical record the patient is not eligible for a current list of medications being obtained, updated, or reviewed by the eligible clinician (**G8430**)
