

Manage Sample Patient Data Settings

Last modified on 05/06/2026 5:30 pm EDT

The **Sample Data** feature is a great way to familiarize yourself with the DrChrono EHR before adding actual patient data. It is designed to be turned on so you can practice and learn the platform, then turned off to remove the data once you are comfortable and ready to add your actual patient data.

[Submit a support case](#) to enable or disable sample patient data for an account.
