

I would like to schedule an appointment with my doctor using OnPatient but am unable to, why?

07/08/2024 7:50 pm EDT

Online scheduling through OnPatient has to be enabled by your provider's office. Not all healthcare providers choose to enable online scheduling via OnPatient.

If you have any questions regarding this service's availability, we encourage you to contact your healthcare provider's office to determine whether online scheduling is offered (or not).
