

Entering Vitals on Your iPhone

09/12/2024 12:46 pm EDT

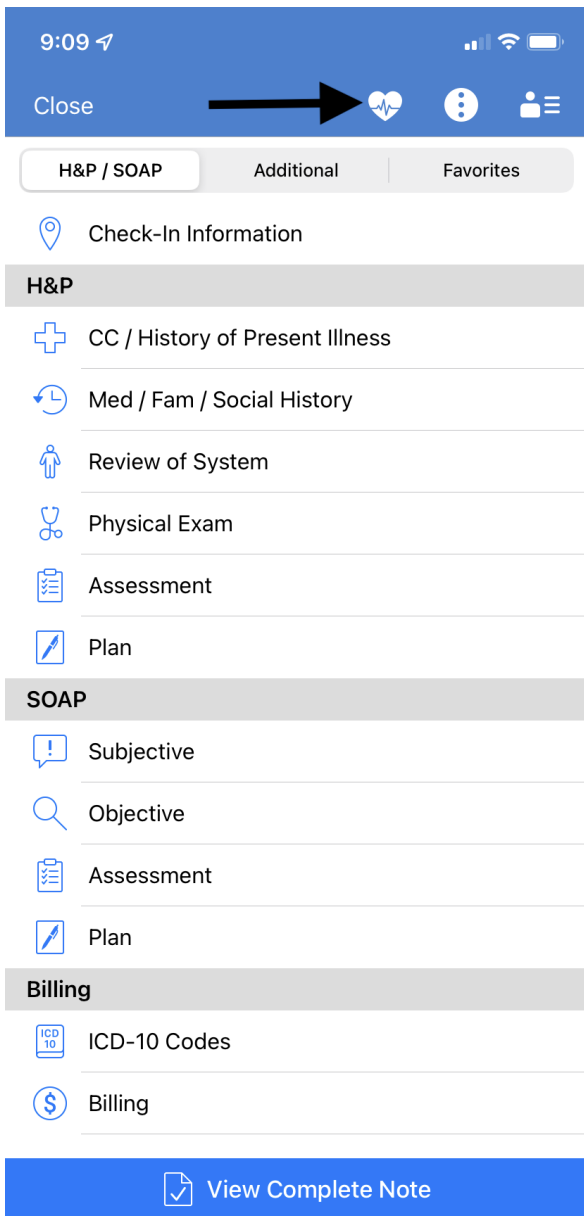

You can enter vitals on the iPhone from the appointment details page, before/after the visit or during a visit in the clinical note.

If your staff takes vitals before/after the provider sees the patient, they can enter vitals in without hitting 'Start Visit'.

To do so, they can directly access the vitals page from the patient chart. Tap **Vitals** to start entering data.

The screenshot shows the top of an iPhone app interface. At the top, there is a status bar with Verizon signal, Wi-Fi, 11:43 AM, and 78% battery. Below that is a blue navigation bar with a 'Back' arrow, a three-dot menu icon, and a user profile icon. The main content area shows a patient profile for 'Jenny (Jen) Harris', a 42-year-old female born 02/11/1980. There are two buttons: 'Super Bill' and 'Vitals', with the 'Vitals' button highlighted by a black box. Below the buttons is a 'Start Visit' button. Underneath is a section titled 'Appointment Details' with a grey background, containing the text '03/10 11:20AM, 30 minutes Physical Exam'. Below this are several menu items: 'Appointment Profile' (Physical Exam >), 'Appointment Status' (>), 'Appointment Status History' (>), 'Office' (Office 1 >), 'Exam Room' (Exam 1 >), and 'Provider' (>). At the bottom is a navigation bar with five icons: 'Appointments' (calendar), 'Patients' (people), 'Messages' (envelope with 9), 'Tasks' (checklist with 26), and 'Account' (person).

If the vitals are taken during the charting process, a provider or staff member can access the vitals page at the top of the screen. Tap the () icon to enter vitals data.

Upon hitting the **Vitals** button for either page, a form will appear that will allow you to enter any of the patient's vitals, including custom vitals. Here you will also be able to view past instances of recorded vitals. Enter vitals by tapping on the pencil () to enter the information. You can enter the information and select **Next** to go to the next data entry point.
