## Taking a Clinical Photo on the iPhone

07/08/2024 7:52 pm EDT

You can add a clinical photo to a patient's chart on the iPhone without having to be in a clinical note.

## 1. Tap on the patient menu (

) in the patient appointment window or by searching for the patient. Tap **Take Clinical Photo**. This will open the camera on the iPhone.

2. Tap the button to take the picture. If the photo is satisfactory, select **Use Photo.** If you need to retake the picture, select **Retake**.

3. Enter a description and **Save**. You will see a success message at the top of your screen when the photo is uploaded to the patient's chart.

4. The clinical photo will upload and appear in the **Patient History** and **Timeline** on the iPhone or iPad and in the **Documents** section on the web. It is not stored on the device you used to take the picture.
