

Refilling a Medication

07/08/2024 7:52 pm EDT

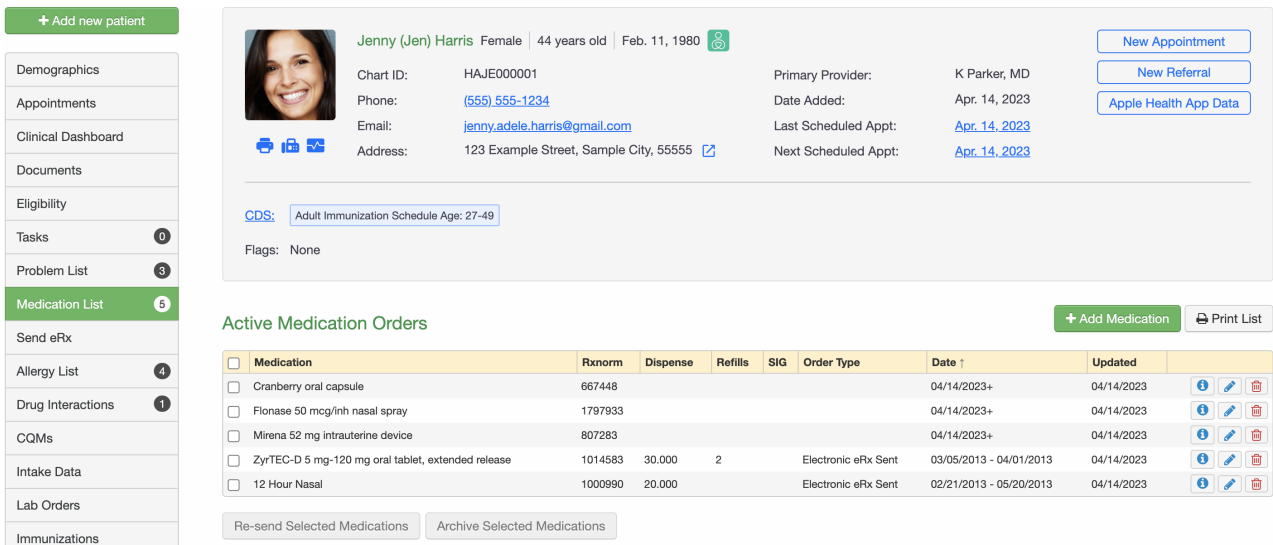

There are two types of refills: via the [medication list](#) and [refill requests](#) from a pharmacy. Each method has its own process and we'll go over how to access each.

Refills via the Patient's Medication List

1. To create a refill via a new prescription, first, you need to access a patient's chart (**Patients > Patient List or Search**).

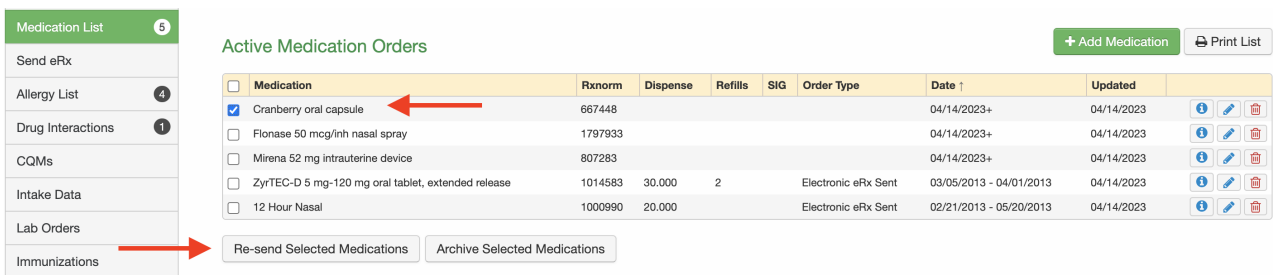

2. Once in the chart, select **Medication List** from the left-hand navigation bar. This will bring you to the patient's medication list.

Note: Before sending a prescription, please ensure you have the patient's complete address, date of birth, and gender recorded in the patient's chart.

3. Check the box(es) next to the medication(s) you would like to refill and click **Resend Selected Medications**.

4. The prescription information will populate the fields on the New Prescription screen. You can make any changes if needed. After choosing the pharmacy, click **Preview Prescription** at the bottom of the page.

The screenshot shows the 'Medication' and 'Benefits' panels. The 'Medication' panel includes fields for Medication* (Cranberry oral capsule), SIG* (1x/day), Effective Date (06/25/2024), Dispense* (7), Dispense Unit* (Capsule), DAW (No), Days Supply (30), and Refills (0). The 'Benefits' panel shows a message: 'To get prescription benefits, please check errors below: prescriber: DoesNotExist: Prescriber matching query does not exist.' Below these panels is the 'Select Pharmacy' section with a search bar and a list of pharmacies. 'Mission Community Pharmacy' is selected. At the bottom right, a 'Preview Prescription' button is highlighted with a red arrow and the number 3.

5. After you hit 'Preview Prescription', you'll be brought to a confirmation page. Here, verify the information on the prescription, check the drug interactions, then hit **Send Prescription** in the upper right-hand corner. Your prescription will be sent to the pharmacy and your patient will be able to pick up the new medication.

A row of action buttons: 'Edit Prescription' (blue), 'Start over' (blue), 'Print Prescription' (grey), 'Fax Prescription' (grey), and 'Send Prescription' (green).

Prescription Summary

Two summary cards. The first card, 'One Supervisor', lists: DEA Number: AP9010001, Clinic One 90001 1ST AVE, Washington, DC, 20000, 503-906-6300, and Date written (UTC): 09/23/2016. The second card, 'SAFEWAY #25-0705', lists: 570 SHORELINE BLVD. MOUNTAIN VIEW, CA 94043, +1.650.961.4851, Fax: +1.650.961.5273, and Retail.

Drug-Drug & Drug-Allergy Interactions

Risk	Severity	Drug 1	Drug 2	Interaction Summary
✔ No drug interactions found				

Medication List

1 Claritin 10 mg oral tablet				
2 milligram(s) oral every 7 days as needed			Dispense: 1	PUC: Tablet
Notes to Pharmacist:			DaW: No	Refills: 0

Refill Requests from the Pharmacy

When the patient contacts the pharmacy to refill the meds and there are no refills left, the pharmacy will contact you through a refill request displayed in the message center.

To access your eRx requests, select the **Message Center** () from your DrChrono navigation bar.

Note: Your patient's pharmacy must be connected via Surescripts in order to deliver eRx requests.

Your **eRx Requests** will be listed on your left-hand messages navigation. Select **eRx Requests**, then you'll see a list of the requests the DrChrono EHR has received from the pharmacy.

Click on the prescription to see the info.

<input type="checkbox"/>	From	Title	Assigned to	Assigned by	Workflow	Created	Updated
<input type="checkbox"/>	☆ OSCO PHARMACY	RefillRequest for			Open	March 22, 2017, 3:07 p.m.	March 22, 2017, 3:07 p.m.

On each eRx request, you'll be able to approve, deny or make changes. For more detailed information see our article [here](#).
