

Diabetes: Eye Exam eCQM CMS131v11

07/08/2024 7:53 pm EDT

Description:

Percentage of patients 18-75 years of age with diabetes and an active diagnosis of retinopathy in any part of the measurement period who had a retinal or dilated eye exam by an eye care professional during the measurement period or diabetics with no diagnosis of retinopathy in any part of the measurement period who had a retinal or dilated eye exam by an eye care professional during the measurement period or in the 12 months prior to the measurement period.

Guidance:

The eye exam must be performed by an ophthalmologist or optometrist, or there must be evidence that fundus photography results were read by a system that provides an artificial intelligence (AI) interpretation.

This eCQM is a patient-based measure.

Initial Population:

Patients 18-75 years of age at the end of the measurement period, with diabetes with a visit during the measurement period.

The screenshot shows a patient record for Jenny (Jen) Harris. On the left is a navigation menu with 'Demographics' selected. The main content area displays patient information: name, gender, age, date of birth, phone, email, date added, address, last and next scheduled appointments, and CDS. Below this is the primary provider, Dr. James Smith, and buttons for 'New Referral', 'Fax Demographics', and 'Print Demographics'. A row of tabs includes 'Important', 'Demographics', 'Insurances', 'Authorizations', 'Smoking Status', 'Flags', 'Balance', and 'onpatient Payments'. A status bar shows 'Sufficient patient demographics to bill insurance.', 'Fall Risk', 'Gestational Diabetes', and 'Likes Cats'. At the bottom, there are input fields for 'Patient SSN' (111-11-1111) and 'Patient Date of birth' (02/11/1980).

AND

A diabetes diagnosis.

Denominator

Equals initial population.

Denominator Exclusions

Exclude patients who are in hospice care for any part of the measurement period. Exclude patients 66 and older by the end of the measurement period who are living long-term in a nursing home any time on or before the end of the measurement period.

Exclude patients 66 and older by the end of the measurement period with an indication of frailty for any part of the measurement period who also meet any of the following advanced illness criteria:

- Advanced illness with two outpatient encounters during the measurement period or the year prior
- OR advanced illness with one inpatient encounter during the measurement period or the year prior
- OR taking dementia medications during the measurement period or the year prior

Exclude patients receiving palliative care for any part of the measurement period.

Denominator Exceptions

None

Numerator

Patients with an eye screening for diabetic retinal disease. This includes diabetics who had one of the following:

- Diabetic with a diagnosis of retinopathy in any part of the measurement period and a retinal or dilated eye exam by an eye care professional in the measurement period
- Diabetic with no diagnosis of retinopathy in any part of the measurement period and a retinal or dilated eye exam by an eye care professional in the measurement period or the year before the measurement period

SNOMEDCT codes can be entered to document the eye screening.

SNOMEDCT	Description
