

# Good Faith Estimate: How do I remove a charge from an existing estimate?

Last modified on 01/16/2026 3:03 pm EST

Removing a charge from an existing Good Faith Estimate (GFE) is very easy.

1. Navigate to the patient's chart, select Patient Cost Estimator, and identify the estimate you want to update.
2. Press the pencil icon to edit or the trash can to remove the charge completely.

Service/Item	Scheduled Date	Qty	Fee	Discount	Expected Cost	Action
Anesthesiology						
Billing Code: 01390						
Mods: 0:0:0:0	TBD	1.00	\$4000.00	\$0.00	\$4000	 
Dx Ptrs: [1:0:0:0]						
Notes: None						
Additional Notes						
None						

3. You can make any additional notes about the price change in the Additional Notes section if you need them.
4. Press the blue **Save** when you are done. The changes will be reflected in the estimate.
