

# Good Faith Estimate: How do I remove a charge from an existing estimate?

08/26/2024 2:26 pm EDT

## Removing a Charge from an Estimate

Removing a charge from an existing Good Faith Estimate (GFE) is very easy.

1. Navigate to the patient's chart, select Patient Cost Estimator, and identify the estimate you want to update.
2. Click on the pencil icon to edit (orange arrow) or the trash can (blue arrow) to remove the charge completely.

Service/Item	Scheduled Date	Qty	Fee	Discount	Expected Cost	Action
Anesthesiology						
<b>Billing Code:</b> 01390						
<b>Mods:</b> 0:0:0:0	TBD	1.00	\$4000.00	\$0.00	\$4000	 
<b>Dx Ptrs:</b> [1:0:0:0]						
<b>Notes:</b> None						
<b>Additional Notes</b>						
None						

3. You can make any additional notes about the price change in the Additional Notes section if you need them.
4. Click on the **Blue Save** when you are done. The changes will be reflected in the estimate.
