

Reset Your Forgotten DrChrono Password

Last modified on 06/22/2026 3:28 pm EDT

If you are logged out or locked out of DrChrono and have forgotten your password, you can reset it from the DrChrono login page. Alternatively, you can [create a support case](#) to unlock your account.

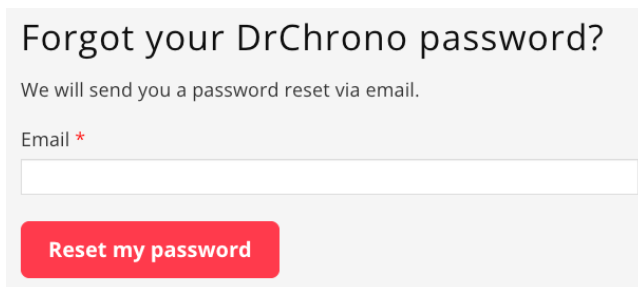

Reset your forgotten password

1. On the DrChrono login page, enter your username and select **Continue**.
2. Select **Forgot password?**.

The screenshot shows the DrChrono login interface. It features two input fields: the top one contains 'samplename' and the bottom one contains 'Password'. Below these fields is a prominent red 'Log In' button. Underneath the button, there are three links: 'Forgot password?' (highlighted with a red arrow), 'Emergency Access', and 'Login with SSO'.

3. Enter your email address and select **Reset my password**.

The screenshot displays the 'Forgot your DrChrono password?' page. At the top, it says 'Forgot your DrChrono password?' followed by the instruction 'We will send you a password reset via email.' Below this is an 'Email *' label and an empty text input field. At the bottom of the form is a red button labeled 'Reset my password'.

4. Check your email for a password reset message from DrChrono. Open the email and select the link provided to reset your password

You're directed to a webpage to set your new password.

5. Enter your new password and reenter it to confirm.
6. Select **Change my password**.

Your password has been changed.
