

# Release Notes for DrChrono Web

## 2023-06-30

09/17/2024 11:19 pm EDT

### What's new

#### Billing and Payments

Summary	Description	Knowledge Base Article
Additional HCPCS codes	Two HCPCS codes have been added to the DrChrono system and can be added to your fee schedule and included on patient claims.	
Additional ICD-10 codes	Forty new ICD-10 diagnosis codes effective in 2023 have been added to the database. The codes are searchable and can be added to your fee schedule and on patient claims.	

#### Practice Management

Summary	Description	Knowledge Base Article
Insurance History End Date	We have updated the end-date field on the Save to Insurance History screen so that it is marked as required and no longer auto-populates with the current date.	

#### Resolutions

Summary	Description
Rx Change Request Fix	Users may have experienced an error when trying to deny or write a new prescription for an Electronic Change Request. DrChrono has fixed this error.
Copy Previous Note Fix	When a user accesses a locked clinical note, the Copy Previous Note button functionality will be disabled.
Billing Warning Flag	Resolved an issue that impacted some users in which the 'billing warning flag' was not changing to 'sufficient patient demographics to bill insurance' despite having all of the billing information entered.
Update to User Roles and Permissions	Resolved an issue where updates to custom user roles and the associated permissions were not working as intended.

Missing Proximity Button	Resolved an issue in which the proximity button was not appearing for certain zip codes when searching for a pharmacy on the Send eRx screen.
