

# How many fax pages does my plan allow?

07/08/2024 7:57 pm EDT

DrChrono offers you a number of ways to communicate with practices. One of those ways is by fax. Each plan type includes a set number of pages every month.

- Asclepius does not offer faxing
- Prometheus - 150 pages per month
- Hippocrates - 400 pages per month
- Apollo - 1000 pages per month
- Apollo+ - 2000 pages per month

**Please Note:** Pages will be deducted for both incoming and outgoing faxes. For example, if you have 150 pages per month and receive 5 pages incoming, you will have 145 pages left for the month.

For any additional pages thereafter you will be charged 5 cents per page. Pages do not roll over but you have a new set of fax pages every month.

If you would like to add additional fax pages to your package, please contact our sales team at: [sales@drchrono.com](mailto:sales@drchrono.com)
