

Using Health Gorilla in DrChrono

Last modified on 01/22/2026 10:36 am EST

We've now integrated with Health Gorilla to give our customers greater access to electronic labs. Your account plan type needs to be a Hippocrates or above for the integration with Health Gorilla.

1. To get started go to [healthgorilla.com/drchrono](https://www.healthgorilla.com/drchrono) and click **Sign in with DrChrono**.

Note: Be sure you have entered your NPI into your DrChrono account settings **before** you set up your Health Gorilla account.

The screenshot shows the Health Gorilla homepage. At the top, there is a navigation bar with icons for back, forward, search, and user profile. The URL in the address bar is <https://www.healthgorilla.com/drchrono>. The main header features the Health Gorilla logo (a cartoon monkey) and the text "HEALTH GORILLA" and "Secure Clinical Network". To the right of the header is a "LOG IN" button. Below the header, a large call-to-action button says "Sign in with drchrono". To the left of this button are three badges: "HIPAA Compliant" (with a caduceus icon), "Meaningful USE" (with a checkmark icon), and "SECURE Clinical Network" (with a shield icon). At the bottom of the page, there is a footer with links to "© 2016 HealthGorilla Inc.", "Legal", "Terms of Use", "CALL 844-446-7455", "Follow us:" (with icons for Facebook, LinkedIn, and Twitter), and a "f" icon.

2. It's going to ask you to authorize Health Gorilla to access your DrChrono information. Click **Authorize** if you agree to the terms

The screenshot shows the DrChrono software interface. At the top, there is a navigation bar with links for 'Schedule', 'Clinical', 'Patients', 'Reports', 'Billing', 'Account', 'Help', and a user profile for 'Kalin vonShowers'. On the right side of the top bar, there is a search bar and a notification badge indicating 45 unread items. Below the top bar, a modal window titled 'Authorization Requested' is displayed. The modal content asks 'Health Gorilla wants to access your data:' and lists a long bullet-pointed list of permissions. At the bottom of the modal are two buttons: 'Authorize' (blue background) and 'Cancel' (white background). The background of the main DrChrono interface shows a patient chart with a blurred face.

Authorization Requested

Health Gorilla wants to access your data:

- View your basic information.
- View detailed patient information.
- Create patients and modify detailed patient information.
- View summary information about your patients. This includes patients' name, chart_id, age, and gender.
- Create new patients and set their name, chart_id, age, and gender.
- View patient lab orders and results.
- Create and modify patient lab orders and results.
- View messages in your message center.
- Create and modify messages in your message center.
- View clinical information, such as vitals, clinical notes, medications and diagnoses.
- View your appointments.

3. It's going to ask you to verify your identity with several questions pertaining to you and your medical license.

The screenshot shows a 'Validate your identity' form. The title 'Validate your identity' is at the top, followed by a sub-instruction: 'This is a secure HIPAA system - data security is important and required by law.' Below this are three input fields: 'Full Name or NPI' (with a placeholder 'John Doe' and an 'x' clear button), 'Date of birth' (with a placeholder '1980-01-01'), and 'Home Zip Code' (with a placeholder '12345'). A descriptive paragraph explains the verification process: 'Health Gorilla is a HIPAA compliant system that contains PHI data. We must verify all our users based on the HIPAA rules. Health Gorilla implements a 2-step verification process which includes verifying your personal information. Health Gorilla does not store or retain any of your verification data and relies on various approved and secure sources to verify this information.' Below this paragraph is a small note: 'By clicking Next Step, you confirm that you have read and agreed to [Health Gorilla Terms](#)'. At the bottom right is a large green 'Next' button.

4. Back in DrChrono, go to a patient chart and select **Health Gorilla** under App Directory

Note: Electronic lab orders for Quest and Labcorp are not available through Health Gorilla. In order to place an electronic lab order to Quest or Labcorp, you will need to open an account with each of these labs (if you don't already have one) and then connect that account to DrChrono. Please see our article for more information on setting up those direct accounts and integrating with DrChrono. In the event that Quest or Labcorp is temporarily unavailable in your account, you are able to order labs for Quest and Labcorp via e-fax as long as you have provided your account numbers to Health Gorilla.

Click [here](#) for a list of connected Health Gorilla labs.
