

How does a patient view lab results in OnPatient?

07/08/2024 7:57 pm EDT

As the provider, you have the ability to share labs with your patients. Once you have done that the patient can take the following steps to view their lab results:

1. Log in to OnPatient and click on **Labs** under the **Health Profile** tab.

The screenshot shows the OnPatient interface. At the top, there is a navigation bar with the OnPatient logo and several menu items: Appointments, Doctors, Billing, Messages (with a red badge showing 65), Documents, and Health Profile (which is highlighted with a red box). Below the navigation bar is a sidebar with a list of menu items: Problems, Allergies, Medications, Labs (with a black arrow pointing to it), Complete Profile, and Access Log. The main content area displays a table of medical problems. The table has four columns: Problem, Time Diagnosed, and Doctor. The data rows are as follows:

Problem	Time Diagnosed	Doctor
Bitten by sea lion, initial encounter	2/22/2019, 12:00:00 AM	Brendan Wilberton
Shark bite (event)	3/8/2019, 12:00:00 AM	Brendan Wilberton
