

UB04 Box 69 - Where do I add the admitting diagnosis on an institutional claim?

Last modified on 02/25/2026 4:18 pm EST

The patient's admitting diagnosis must be printed in box 69 on the UB04 institutional claim form. DrChrono makes it easy to add to your patient's claim.

1. Navigate to **Billing > Live Claims Feed > inside patient's appointment > Line items transactions section**

The admitting diagnosis code is added to the "Adm" box highlighted below. The diagnosis can be added by code or looked up using text.

#	Diagnosis Code	Description	POA	
	<input type="text" value="Add ICD-10 code"/>			Switch to ICD-9
Print	<input type="text" value="Principal Dx Code"/>		<input type="text" value="Exempt from"/>	<input type="button" value="X"/>
Adm	<input type="text" value="Admitting Dx Code"/>			<input type="button" value="X"/>

The diagnosis added to this box will be listed as the admitting diagnosis code in box 69 of the UB04 form.

69 ADMIT DX	R07.9	70 PATIENT REASON DX
74	PRINCIPAL PROCEDURE CODE	DATE
