How do I view the schedule by office or by doctor in DrChrono?

09/10/2024 4:30 pm EDT

Viewing the schedule by the office or by a doctor is even more user-friendly than ever. Please take note that all doctors are unchecked at first, so you must select the desired doctor(s) from the start. 1. Check the box next to the provider's name and/or office to view the schedule by those filters.

2. As you can see here, the Exam Rooms view is restored with multiple doctor and office selections.
